Front-end: JavaScript, TypeScript, ES6, ReactJS, NextJS, React Router-Dom, Firebase, Tailwind, GSAP, HTML, CSS.

Back-end: Node.js, Express.js, Mongoose, MongoDB, API, JWT, Cookies.

Tools: GitHub, VS Code, Postman, Chrome Dev Tools, Firebase, Netlify, Vercel, Figma.

WORK EXPERIENCE

Full-Stack developer at Wixerd IT -Remote (Nov 2023- May 2024)

- Developing responsive and interactive user interfaces using ReactJS, NodeJS, and related libraries
- Created Client Management System and Product Management System using RESTful APIs with NodeJS, ExpressJS, and Mongoose.
- Building and maintaining databases using MongoDB and Collaborating with other developers.

TECHNICAL PROJECTS (Front-End)

Hunger(Cafe-Website) [Live Website Link](#) | [Github Client](#)

- Visually stunning and highly functional frontend web application designed to address food scarcity issues. Leveraging cutting-edge technologies, I created a user-friendly interface. The project involved comprehensive design principles, responsive layouts, and interactive features that enhance user engagement and experience. "Hunger" is fully prepared for backend implementation, showcasing my ability to deliver complete, production-ready front-end solutions.

Technology: Next.js, JavaScript, Tailwind, Vercel(for hosting).

Clara-Vista [Live Website Link](#) | [Github Client](#)

- Designed and developed a sleek and modern website for selling goggles, focusing on a dynamic user interface built with React and styled with Tailwind CSS. Implemented GSAP animations, including text and scroll-triggered effects, to enhance the user experience. Ensured the site is fully responsive and cross-browser compatible, providing a seamless experience across all devices.

Technology: React.js, GreenSock Animation Platform (GSAP), JavaScript, Tailwind, Netlify (for hosting).

The Kitchen [Live Website Link](#) | [Github Client](#)

- Developed "The Kitchen," a beautifully designed frontend project featuring multiple sections ready for backend integration. The site showcases a harmonious color palette, stylish typography, and a well-structured layout, providing an exceptional user experience. This project demonstrates my ability to create visually appealing and highly functional web designs, setting a solid foundation for full-stack development.

Technology: React.js, Tailwind, Firebase (for hosting)

PROFESSIONAL TRAINING

Web Development Course: Programming Hero, 2023

LANGUAGE PROFICIENCY

English - **Fluent**

Bangla - **Native**
